

ADITYA VERMA

MERN Stack Intern

📞 7379851567 @ adityafriendrahul@gmail.com 🔗 linkedin.com/in/aditya-verma0/

📍 123 Street Name, Town, State 12345

SUMMARY

I am a dedicated Computer Science student with hands-on experience in full-stack development, particularly using the MERN stack. I have worked on various projects, from weather applications to real estate management systems, showcasing my strong skills in web technologies and UI/UX design. My proactive approach as a Technical Event Coordinator demonstrates my leadership ability and passion for technology

EXPERIENCE

MERN Stack Intern

CETPA Infotech Pvt. Ltd

📅 08/2025 📍 Noida, Uttar-Pradesh

CETPA Infotech is a training company that offers IT training and solutions

- Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js to manage dynamic data and user interactions efficiently
- Built and integrated RESTful APIs to handle CRUD operations and connect frontend with backend services seamlessly
- Implemented responsive React components and interactive UI features to improve user experience across devices
- Explored ways to implement authentication, authorization, and real-time updates, ensuring secure and smooth user interactions

UI/UX Developer Trainee

Nasscom foundation-Accenture Project

📅 09/2025 - 11/2025 📍 Noida, Uttar-Pradesh

Project in collaboration with Accenture focusing on UI/UX development

- Worked as a UI/UX Developer Trainee at NASSCOM, designing and developing responsive web interfaces using HTML, CSS, and JavaScript
- Enhanced user experience, accessibility, and performance through modern UI/UX best practices
- Implemented interactive components, form validations, and dynamic features to improve user engagement

EDUCATION

Bachelor of Technology in Computer Science

ITM College - Afiiliated to AKTU

📅 09/2021 - 06/2025 📍 Gorakhpur, Uttar-Pradesh

SKILLS

Gmail	GitHub	Data Structures	MongoDB
Express.js	React	Node.js	REST
Responsive Web	HTML	CSS	JavaScript
Figma	Visual Studio Code	Linux	GCP
Visual Studio	Netlify	Python	C/C++
Tailwind	Git	Jenkins	Android Studio

PROJECTS

Weather Forecast

📅 01/2026 - 01/2026

Weather Forecast Application to provide users with real-time weather data

- Developed a responsive Weather Forecast Web Application using HTML, CSS, and JavaScript
- Used DOM manipulation and asynchronous API calls (fetch/async-await) for dynamic content rendering
- Created a Linux virtual machine to run on Google Cloud so that the program is able to run everyday from the cloud
- Implemented city-based search with live temperature, humidity, and wind speed updates

Real-estate Management Application

📅 11/2025 - 11/2025

Real-estate Management Application facilitating property management

- Created a web application using MERN technology and Visual Studio to explore more about the real-estate sector and try to counter the various problems
- The Application enables users to register, authenticate securely, and manage property listings through a role-based dashboard (Admin, Users)
- The backend handles requests via RESTful APIs, processes business logic, and stores data in MongoDB

Personal Portfolio Website

📅 01/2026 - 01/2026

Personal portfolio website to showcase skills and projects

- Designed and developed a responsive personal portfolio website using HTML, CSS, and JavaScript
- Showcased projects, skills, and contact information with a clean and modern UI and mobile responsiveness
- Integrated a contact form with backend email service to automatically receive user inquiries in real time

INTERESTS

Technical Event Coordinator

Organized and conducted coding and error-debugging competitions during the college fest, engaging participants and fostering a collaborative environment
